

The Recording and Playback of Light

	<u>Title</u>	<u>Patent No.</u>
1	Authoring, Recording and Replication of Lighting	8,021,021
2	Authoring, Recording and Replication of Lighting	JP5529861
3	Systems and Methods for Developing and Distributing Illumination Data Files	9,066,404
4	Luminaire System	8,922,570
5	Method of Optimizing Light Output During Light Replication	8,952,631
6	Lighting System With Programmable Temporal and Spatial Spectral Distributions	8,469,547
7	Systems and Methods for Developing and Distributing Illumination Data Files	CN103765467
8	Systems and Methods for Developing and Distributing Illumination Data Files	DE112012000775
9	Creating and Licensing Illumination	9,028,094
10	Synthesizing Lighting to Control Apparent Colors	9,572,231
11	Spectrally Controllable Light Valve	9,574,747
12	Luminaire Executing Scripts for Dynamic Illumination	9,345,117
13	Method of Light Spectrum Replication	9,635,728
14	Recording Illumination	9,534,956
15	Spectrally Controllable Light Valve	CN106662763
16	Distributing Illumination Data Files	10,339,591
17	Illumination Content Production and Use	9,820,360
18	Lighting System With Sensor Feedback	9,974,141
19	Lighting System Using Sensors	9,888,539
20	Illumination Content Production and Use	CN108474531B
21	Illumination Content Production and Use	CN112911759
22	Illumination Content Production and Use	GB2560282
23	Illumination Content Production and Use	GB2600842
24	Multi-Emitter Lighting System With Calculated Drive	10,172,204
25	Setting Lighting Based on the Colors of Samples	10,045,417
26	Systems and Methods for Developing and Distributing Illumination Data Files	CN107918901
27	Editing of Illumination and Non-illumination Content	10,426,018
28	Lighting Having Spectral Content Synchronized With Video	10,433,392
29	Illumination Content Translation	11,147,134
30	Identifying, Recording, Encoding, and Reproducing Electromagnetic Radiation	12,526,900
